

Kenneth C. Frazier PhRMA Scholars Program

- The Kenneth C. Frazier PhRMA Scholars Program seeks to support Minds Matter students who are dedicated to pursuing a robust and well-rounded education but may lack the needed funds to defray all costs associated with attending college.
- PhRMA will provide up to \$20,000 in needs-based scholarships to two Minds Matter students each year who exemplify Ken's determination, love of learning and work ethic.
- The scholarship specifically targets academically high achieving, low-income students in Washington, D.C. and in Ken's hometown of Philadelphia, Pennsylvania who plan to attend a four-year college or university following graduation.

In total, PhRMA has committed \$50,000 to Minds Matter DC each year to support their tutoring and mentorship program, which prepares high school students for college entrance exams and assists with the college application process, and to fund this scholarship program in both cities.

About Minds Matter

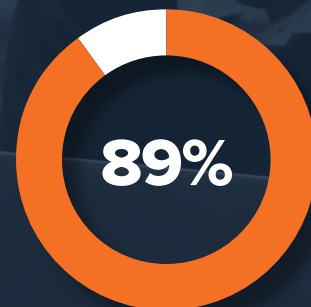

Minds Matter is a volunteer-driven, not-for-profit organization whose mission is to connect ambitious and determined students from low-income families with the people, preparation and possibilities to succeed in college, create their future and change the world.

On average, Minds Matter students get 85% of their tuition needs met through federal and local grants, school aid, scholarships and loans. However, the remaining 15% of tuition represents a significant barrier to accessing and affording a post-secondary education.

The Kenneth C. Frazier PhRMA Scholars Program seeks to fill this gap and ensure these exceptional students from our community are able to benefit from all the opportunities a college education offers.

of Minds Matter students are accepted into four-year colleges and universities.

of Minds Matter students are first-generation college students.
